Echantillonnage

Méthode d'échantillonnage

Between April and July 2014, 2826 stakeholders of the WBG in Senegal were invited to provide their opinions on the WBG's work in the country by participating in a country opinion survey. Participants were drawn from the office of the President, Prime Minister; elected members of the National Assembly; ministries/ministerial departments; consultants/contractors working on WBG-supported projects/programs; PMUs; local governments; bilateral and multilateral agencies; private sector organizations; financial sector/private banks; NGOs; the media; independent government institutions; trade unions; academia/research institutes/think tanks; judiciary branch; and other organizations.

Taux de réponse

A total of 269 stakeholders participated in the survey (10% response rate).

Pondération

The results in this year's Country Survey were compared to those in the Country Surveys conducted in FY'11 (N=396; 54% response rate) and FY'07 (N=143; 34% response rate). Data were weighted to reach the same stakeholder composition in three years, which allows for comparisons among three years. Stakeholder groups which were not present in both fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, means of the FY' 14 data and the total number of respondents in three years are slightly different from those of the original data reported in appendices A, B, C, D, F, G. For the weighted stakeholder breakdown and year comparison results, please see appendix E (page 129) in the "Report of Findings" that is provided as an external resource.
